INSPIRED FOR HEALTH

Lacri+®

PRESERVATIVE FREE

Preservative-free

Lubricates, hydrates and protects the ocular surface

Patented technology to enhance persistence and ocular comfort

Samaxia
INSPIRED FOR HEALTH

Lacri+®

PRESERVATIVE FREE

Preservative-free
Reduces eye irritation

Easy to use*

Can be kept 3 months after opening

* Gard C et al. (2023).

Why choose Lacri+®?

Cross-linked sodium hyaluronate (patented technology)

✓ Increased ocular hydration and lubrication

✓ Prolonged action

✓ Protection of the ocular surface

Patented bottle

Can be kept up to 3 months after opening

Benefits demonstrated*

By a scientific study in dogs

Samaxia
INSPIRED FOR HEALTH

* Gard C et al. (2023).

How to use Lacri+®?

Samaxia
INSPIRED FOR HEALTH

- **1-2 drops twice a day** or as directed by your veterinarian
- **Recommended duration of use:** medium- and long-term use
- **Occasional or permanent use**

How to use Lacri+®

Samaxia
INSPIRED FOR HEALTH

Wash hands thoroughly

1. Remove the seal ring at first use.
2. Open the protective cap.

3. Turn the bottle and apply gentle pressure on the bottle to instill 1–2 drops in each eye of the animal twice daily, or as directed by your veterinarian.

⚠️ Avoid direct contact between the tip and the animal's eye or skin.

The pressure to apply on the bottle may increase during use.

4. Close the bottle with the protective cap.

When to use Lacri+®?

Samaxia
INSPIRED FOR HEALTH

Lubricate, hydrate and protect the ocular surface

Improve ocular comfort and clinical signs associated with dry eye syndrome

Promote cell regeneration*

* Gard C et al. (2023).

Clinically proven efficacy in dogs

Improvement of **comfort** and **quality of life** in dogs with dry eye

83% of owners find the product **easy to apply**

Gard C et al. Evaluation of a preservative-free, cross-linked sodium hyaluronate-based solution, Lacri+®, in dogs with dry eye: a pilot trial. Ir Vet J. 2023 Oct 6;76(1):30.

PRESERVATIVE FREE

Preservative-free
limits eye irritation

Long-lasting protection and soothing

Shelf life: 3 months
after opening

Why choose Lacri+® Vitamin A ?

Vitamin A

✓ Helps maintain the integrity of the cornea

✓ Soothes dry eyes, providing long-lasting relief and protection of the eye surface

Samaxia
INSPIRED FOR HEALTH

How to use Lacri+® Vitamin A ?

Samaxia
INSPIRED FOR HEALTH

Apply a line of ointment of about 10 mm along the inside of the lower eyelid, twice daily

Recommended duration of use:
medium and long term

How to use Lacri+® Vitamin A ?

Samaxia
INSPIRED FOR HEALTH

Wash your hands thoroughly

1. Then remove the cap from the tube.
2. If necessary, ask someone to gently hold the animal so that it stays still. Slightly tilt the animal's head back.
3. With your finger, gently pull the lower eyelid of the eye down to form a small pocket.
   ⚠️ Avoid any direct contact of the tip with the eye or skin of the animal.
4. Gently squeeze the tube to apply a line of ointment of about 10 mm along the inside of the lower eyelid.
5. Gently massage the eyelids to spread the ointment over the surface of the eye.
   Repeat the application twice daily or as advised by your veterinarian.

When should **Lacri+®** **Vitamin A** be used ?

Samaxia
INSPIRED FOR HEALTH

Help maintain the integrity of the cornea

Soothe signs of dry eye and improve comfort

At night, as a follow-up to Lacri+®
(for continuous protection)
