Sensiderm® Balm: balm for enhanced hydration without greasy effect

Emollient balm reinforced with plant extracts

Moisturises the skin[2]
Urea, glycerin and shea butter: humectants and emollients known for their moisturising power

Soothes the skin[3]
***Centella asiatica* and vitamins B** (panthenol (pro-vitamin B5)): Soothe sensitive skin with their capacities to modulate inflammation

Reinforces hydration
Allantoïne[7]**:** moisturises and stimulates cell reconstruction

Acacia[8]**:** forms a protective film and helps cell regeneration

Lanolin plant substitutes[2]**:** occluding effect to retain water

Sensiderm® Balm helps reduce the clinical signs associated with nasal thickening

Clinical benefits shown[9]

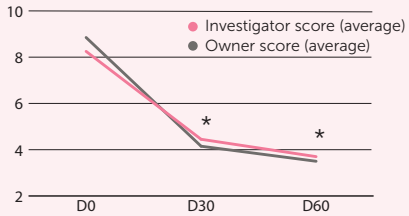

Materials and methods:

- 20 dogs with nasal thickening
- Sensiderm® Balm, BID 60 days
- clinical evaluations and evaluations by the pet owners conducted at D0, D30 and D60

Results:

- significant decrease in clinical scores at D30 and D60 compared to D0 (* $p < 0{,}0001$)
- improvement of the animal's comfort
- owner satisfaction (8.1/10)
- no adverse effects

Evolution of the clinical score

Clinical score (0-12): dryness, lichenification, crusts, affected surface - 0 to 4

When to recommend Sensiderm® Balm?

Protection of dry and thickened areas: nose (crusting, dryness), pads (cracks, dryness), calluses

Why recommend Sensiderm® Balm?

Comfort

- Improved comfort
- Respect for fragile skin with plant extracts
