Fiberact®

Name: Fiberact®

Category: Digestive support – Complementary feed.

Target species: Dog - Cat

Presentation: Pot of 100g

GTIN code: 3664499000018

Information:

Feed material for animal feed, supports intestinal transit. Psyllium has beneficial effects on digestive transit, regulating the progress of the contents of the small intestine and the colon. The lubrication produced by psyllium gel facilitates the elimination of stools and promotes the evacuation of hairballs. Psyllium mucilage acts like a sponge, swelling and binding water to form a viscous gel that is not absorbed by the body.

Why recommend Fiberact ?

- A proven activity to facilitate the evacuation of stools and promote the evacuation of hairballs
- Fast and visible effects in less than 4 days for more than 90% of dogs and cats.
- Easy-to-give product for 70% of cat owners and 82% of dog owners.

Use:

- **Dogs:** 1 teaspoon per day for 10 kg of weight.
- **Cats:** 1/2 teaspoon per day.
- Mix with food.
- Ensure the animal has water available.
- Wet the food if necessary.
- The quantity can be doubled if required.
- Follow the veterinary advice of the surgeon.

Composition

Blond psyllium husk powder (*Plantago ovata*): 100%
