Honeyderm®

Name: Honeyderm®

Category: Skin care

Target species: Dog - Cat

Presentation: Conditioning balm with 70% honey

GTIN code: 3664499000001

Information: Honeyderm® is a balm with 70% honey to contribute to skin restoration.

Why recommend Honeyderm ®?

- The osmotic properties of honey (70%) help to maintain protected moist environment and to create a protective film
- Contains also hyaluronic acid, vitamins A & E, Aloe vera, shea butter and lavender essential oil
- No petroleum derivative
- Available in 2 formats: 62 g for in-clinic use and 12 g for home-use

Instructions for use:

- Clean and dry the affected area, then apply a thick layer.
- Removable nozzle for a wider application (62 g tube).
- Repeat as advised by your vet.

Caution

Contains LAVANDULA ANGUSTIFOLIA, ANGUSTIFOLIA HERB OIL: 84776-65-8. May produce an allergic reaction.

Hygiene product for veterinary use.
